Concern: Heartfelt Condolences and Support for California Wildfire Victims

It is with heartfelt sorrow and sadness that we have been following the tragic wildfire that is devastating California, particularly the city of Los Angeles and its vicinities, causing heavy casualties and property loss. The impact of such calamity eventually affects different aspects of life and of the national community.

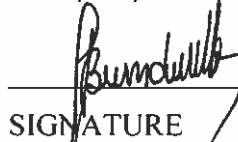

On behalf of CI&UCBC communities, I would like to convey our deep grief over the unfortunate victims and extend our sincere condolences and sympathy to all partners and friends from Los Angeles and whole population of California.

I wish to ensure you that our prayers are with you and all who have tragically lost their homes, relatives and properties.

May the Lord grant them comfort, strength, relief and fresh hope in facing the future.

David in Psalms 46:1 reminds us that God is our refuge and strength, an ever-present help in trouble.

With prayers,
